

Compostable Caddy Liner Stockists

Using a compostable bag to line your caddy is the easy and tidy way to collect your food waste. The use of liners is not compulsory, but should you wish to buy them, a list of local stockists can be found overleaf.

Compostable liners are made from corn starch, are 100% biodegradable, and fully compostable. Acceptable liners will be stamped with the “Compostable” logo.

If you do not wish to purchase compostable liners for your kitchen caddy, you can use newspaper as an alternative.
