Built Environment

1 Built Environment

The initiative will contribute towards a high quality, well-designed built environment that complements the distinctive and historic local character?

 *Mixed – partly true, but some way to go*

Justification:

Selected actions may impact on the built environment but too soon to tell

Mitigation:

To be developed on an individual project basis

1.1 Historic Built Environment

The initiative will maintain or enhance the character of built heritage or a particular historical feature in the area?

 *Mixed – partly true, but some way to go*

Mitigation:

To be developed on an individual project basis

Justification:

Selected actions may impact on built environment but too soon to tell

1.2 Housing

The initiative will help to provide a sufficient range of (particularly affordable) housing that is well-designed and sustainable?

 *Not relevant*

1.3 Identity and Character

The initiative will be well designed to support and enhance local distinctiveness whilst creating a "sense of place"?

 *Mixed – partly true, but some way to go*

Mitigation:

to be developed on an individual project basis

Justification:

Selected actions may support and enhance this but too soon to tell

1.4 Open Space

The initiative will help to ensure that a wide range of accessible, attractive and safe open spaces are available to all?

 *Mixed – partly true, but some way to go*

Mitigation:

To be developed on an individual project basis

Justification:

It is not clear yet of the selected actions will impact on open spaces

Climate Change

2 Climate Change

The initiative will contribute towards tackling the causes and effects of climate change?

 *Yes – completely true*

Justification:

Climate change is a key consideration in the FRM planning process

Mitigation:

The selected actions will help to manage increased flood risk due to climate change

2.1 Adaptation

The initiative will take account of potential changes brought about by climate change (for example, flooding, higher temperatures, heatwaves and more frequent storms)?

 *Yes – completely true*

Mitigation:

The selected actions and intended to reduce or avoid increase in flood risk

Justification:

Climate change is a key consideration in the FRM planning process

2.2 Greenhouse Gas Mitigation

The initiative will help to mitigate greenhouse gases?

 *Yes – completely true*

Mitigation:

See Justification

Justification:

The selected actions will help to manage increased flood risk due to climate change

Community

3 Community

The initiative will contribute towards encouraging vibrant and safe communities, where everyone has an opportunity to participate in community life and local decision-making?

 *Yes – largely true, but still more to do*

Justification:

The selected actions will help to make communities safer, through a reduction in flood risk. The draft plans have been subject to public consultation.

3.1 Access to services

The initiative will improve and support access to jobs, services and amenities for the local community?

 *Mixed – partly true, but some way to go*

Mitigation:

To be determined for individual projects

Justification:

The selected actions will help local communities to become more resilient

3.2 Community Safety

The initiative will contribute towards reducing crime, disorder and danger and support social cohesiveness?

 *Mixed – partly true, but some way to go*

Justification:

The selected actions are intended to reduce the dangers posed by flooding

3.3 Engagement

The initiative will seek to adequately engage with all members of the community in the decision-making process for the area through using VOiCE?

 *Yes – completely true*

Justification:

The draft Strategies and Plans have been subject to public consultation between Dec '14 and June '15. Citizen Space used - not VOiCE

3.4 Identity and Citizenship

Justification:

Public awareness raising has been included within the selected actions

3.5 Social Inclusion

The initiative will promote social inclusion for all?

 *Not relevant*

Consumption & Production

4 Consumption and Production

The initiative will promote more sustainable production and consumption of goods and services?

– *No – some truth, but a long way to go*

Justification:

There may be short term consumption at the implementation stage of the selected actions but a future reduction due to reduced flood risk

Mitigation:

To be considered on an individual project basis

4.1 Energy

The initiative will help reduce energy consumption and promote energy efficiency?

– *No – some truth, but a long way to go*

Mitigation:

Energy efficiency to be considered on an individual project basis

Justification:

Implementation of selected actions may require energy in short term during construction but will avoid consumption in future through reduction of flooding.

4.2 Waste

The initiative will encourage the prevention, reduction, re-use, recovery or recycling of waste?

– *No – some truth, but a long way to go*

Mitigation:

Waste minimisation to be considered on an individual project basis.

Justification:

Implementation of selected actions may generate waste in short term during construction but should avoid waste in longer term due to reduction in flooding.

Culture & Recreation

5 Culture and Recreation

The initiative will support the promotion and enhancement of cultural and recreational opportunities for all?

 *Mixed – partly true, but some way to go*

Justification:

The draft FRM Strategies and Local FRM Plans have considered cultural heritage, among other issues
