

# SCREENING REPORT

## STEP 1 – DETAILS OF THE PLAN

**Responsible Authority:**

Perth and Kinross Council

**Title of the plan:**

Local Development Plan Supplementary Guidance: Financial Guarantees for Minerals Development

**What prompted the plan:**

(e.g. a legislative, regulatory or administrative provision)

The Perth and Kinross Local Development Plan was adopted in November 2019. The plan includes Policy 49: Minerals and other extractive activities – supply, which sets out that restoration proposals need to be agreed in advance of operations. The policy provides that Supplementary Guidance may be used to provide detailed advice about the full range of financial guarantees that may be used to secure restoration.

**Plan subject:**

(e.g. transport)

Town and country planning

**Screening** is required by the Environmental Assessment (Scotland) Act 2005.

Based on Boxes 3 and 4, our view is that:

**An SEA is required, as the environmental effects are likely to be significant:** Please indicate below what Section of the 2005 Act this plan falls within

Section 5(3)

Section 5(4)

**An SEA is not required, as the environmental effects are unlikely to be significant:** Please indicate below what Section of the 2005 Act this plan falls within

Section 5(3)

Section 5(4)

**Contact details:**

Alasdair Finlayson, Planning Officer, Development Plans Team, Housing and Environment Service, Perth and Kinross Council, Pullar House, 35 Kinnoull Street, Perth, PH1 5GD  
developmentplan@pkc.gov.uk

**Date:**

4 December 2019

## STEP 2 – CONTEXT AND DESCRIPTION OF THE PLAN

### Context of the Plan:

This supplementary guidance will support Policy 49B that relates to site restoration for minerals and other extractive activities in the Local Development Plan. It is intended that the supplementary guidance will provide support, further information and detail in respect of the full range of financial guarantees that may be used to secure restoration of such sites. The guidance will be adopted and become a material consideration in the preparation and determination of planning applications in the Local Development Plan area.

The supplementary guidance is not intended to have influence on other plans and policies because it will guide the reader to other existing sources of information on the topic. It will not introduce new material of its own.

### Description of the Plan:

It is intended that the supplementary guidance will not introduce new material nor policy/locational criteria for minerals development. Instead, it will offer a consolidating guide to existing policy and guidance relating to site restoration for minerals and other extractive activities. Its focus will be on promoting easy access to existing information. It will be limited spatially to the Local Development Plan area. Its temporal scope will be the same as the Local Development Plan to which it is connected (adopted in 2019 and expected to be reviewed within five years).

### What are the key components of the plan?

The Supplementary Guidance will refer to National policy and advice, including any available from Scottish Government, SNH, SEPA and HES; Strategic Development Plan policy on minerals generally; and Perth and Kinross Council LDP policy and minerals advice.

Its focus will be on guiding the reader to existing material in respect of the full range of financial mechanisms available to secure restoration of minerals development sites.

### Have any of the components of the plan been considered in previous SEA work?

The LDP policy under which this supplementary guidance is to be prepared has been considered as part of the SEA of the LDP. The requirement to modify the policy to include provision of Supplementary Guidance has also been considered as part of the SEA addendum prepared to evaluate the recommendations contained in the LDP examination report.

### In terms of your response to Boxes 7 and 8 above, set out those components of the plan that are likely to require screening:

As the proposed Supplementary Guidance on Financial Guarantees for Minerals Development will not introduce new material not already covered to an appropriate level in earlier SEA work, it will not generate any specific environmental effects of its own. Only the potential impact of collecting information on existing policy and guidance together in one document need be assessed.

**STEP 3 – IDENTIFYING INTERACTIONS OF THE PLAN WITH THE ENVIRONMENT AND  
CONSIDERING THE LIKELY SIGNIFICANCE OF ANY INTERACTIONS (Error! Reference source not found.)**

Plan Components	Environmental Topic Areas										Explanation of Potential Environmental Effects	Explanation of Significance
	Biodiversity, flora and fauna	Population and human health	Soil	Water	Air	Climatic factors	Material assets	Cultural heritage	Landscape	Inter-relationship issues		
Consideration of new proposals	x	x	x	x	x	x	x	x	x	x	Help with improved consideration of the full range of financial guarantees that may be used to secure restoration as an integral component of applications for new proposals by signposting routes to existing policy, guidance and information.	This SG will assist in directing to existing policy and guidance without introducing new material. It will therefore have minimal impact on its own although will help in raising awareness of existing material. It is anticipated that its application in Development Management will be to signpost how site masterplans articulate financial guarantees to secure restoration.
Consideration of impact of new proposals on existing minerals development and other extractive activities	x	x	x	x	x	x	x	x	x	x	Help when considering reviews and modifications of existing permissions and LDP allocations to ensure restoration is secured thereby avoiding compromising their potential for continued development.	This SG will assist in directing to existing policy and guidance without introducing new material. It will therefore have minimal impact on its own although will help in raising awareness of existing material.

#### STEP 4 – STATEMENT OF THE FINDINGS OF THE SCREENING

**Summary of interactions with the environment and statement of the findings of the Screening:**

(Including an outline of the likely significance of any interactions, positive or negative, and explanation of conclusion of the screening exercise.)

The Local Development Plan Supplementary Guidance: Financial Guarantees for Minerals Development will be a material consideration in the determination of planning applications in the Perth and Kinross Local Development Plan area. It will offer a consolidating guide to existing policy and guidance and its focus will be on promoting easy access to existing information.

It will not result in any significant environmental effects on the issues listed in Schedule 3 Section 6 (a)-(e) of the Environmental Assessment (Scotland) Act 2005. It is therefore our view that an SEA is not required in this instance.

When completed send to: [SEA.gateway@scotland.gsi.gov.uk](mailto:SEA.gateway@scotland.gsi.gov.uk) or to the SEA Gateway, Scottish Government, Area 2H (South), Victoria Quay, Edinburgh, EH6 6QQ.
