

# CONTRACTORS ACCESS PROPOSALS - WATER OF RUCHILL

## WATER OF RUCHILL

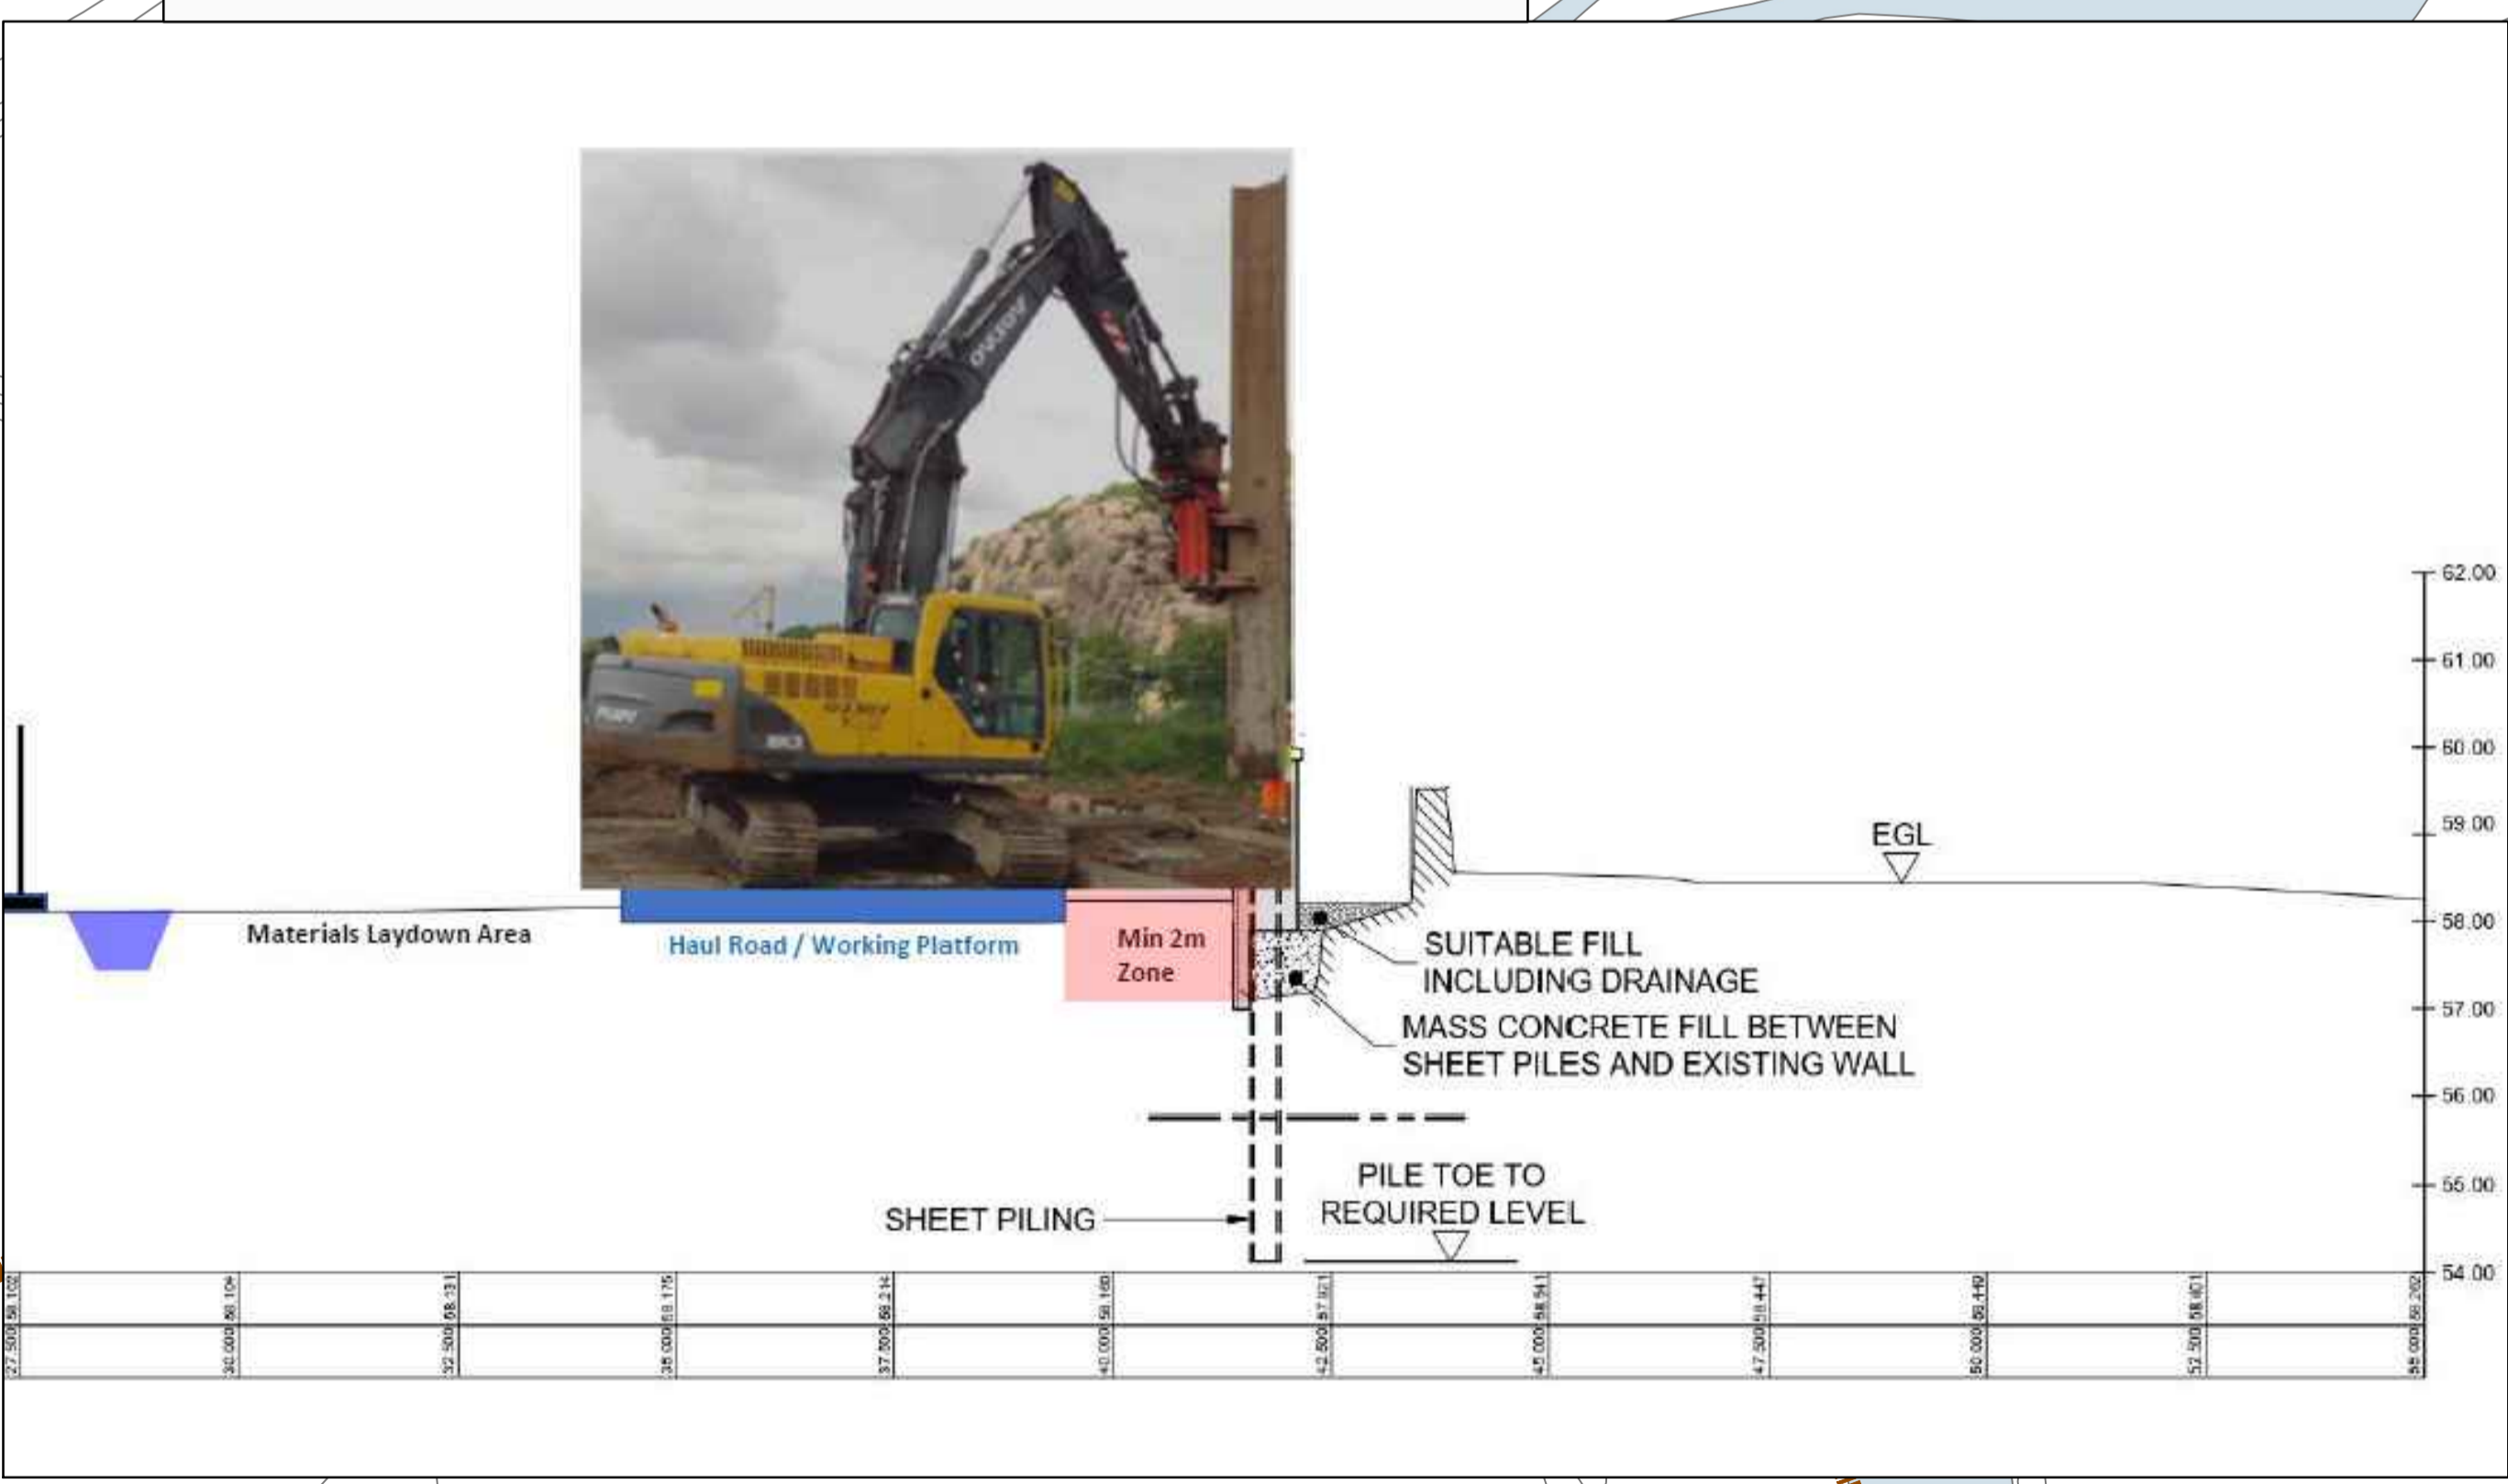

Construction access will be established from the North (Field of Refuge) to the South (south of Camp Road).

Permanent flood defence (embankment and wall) will be constructed from South to North (i.e. from upstream to downstream).

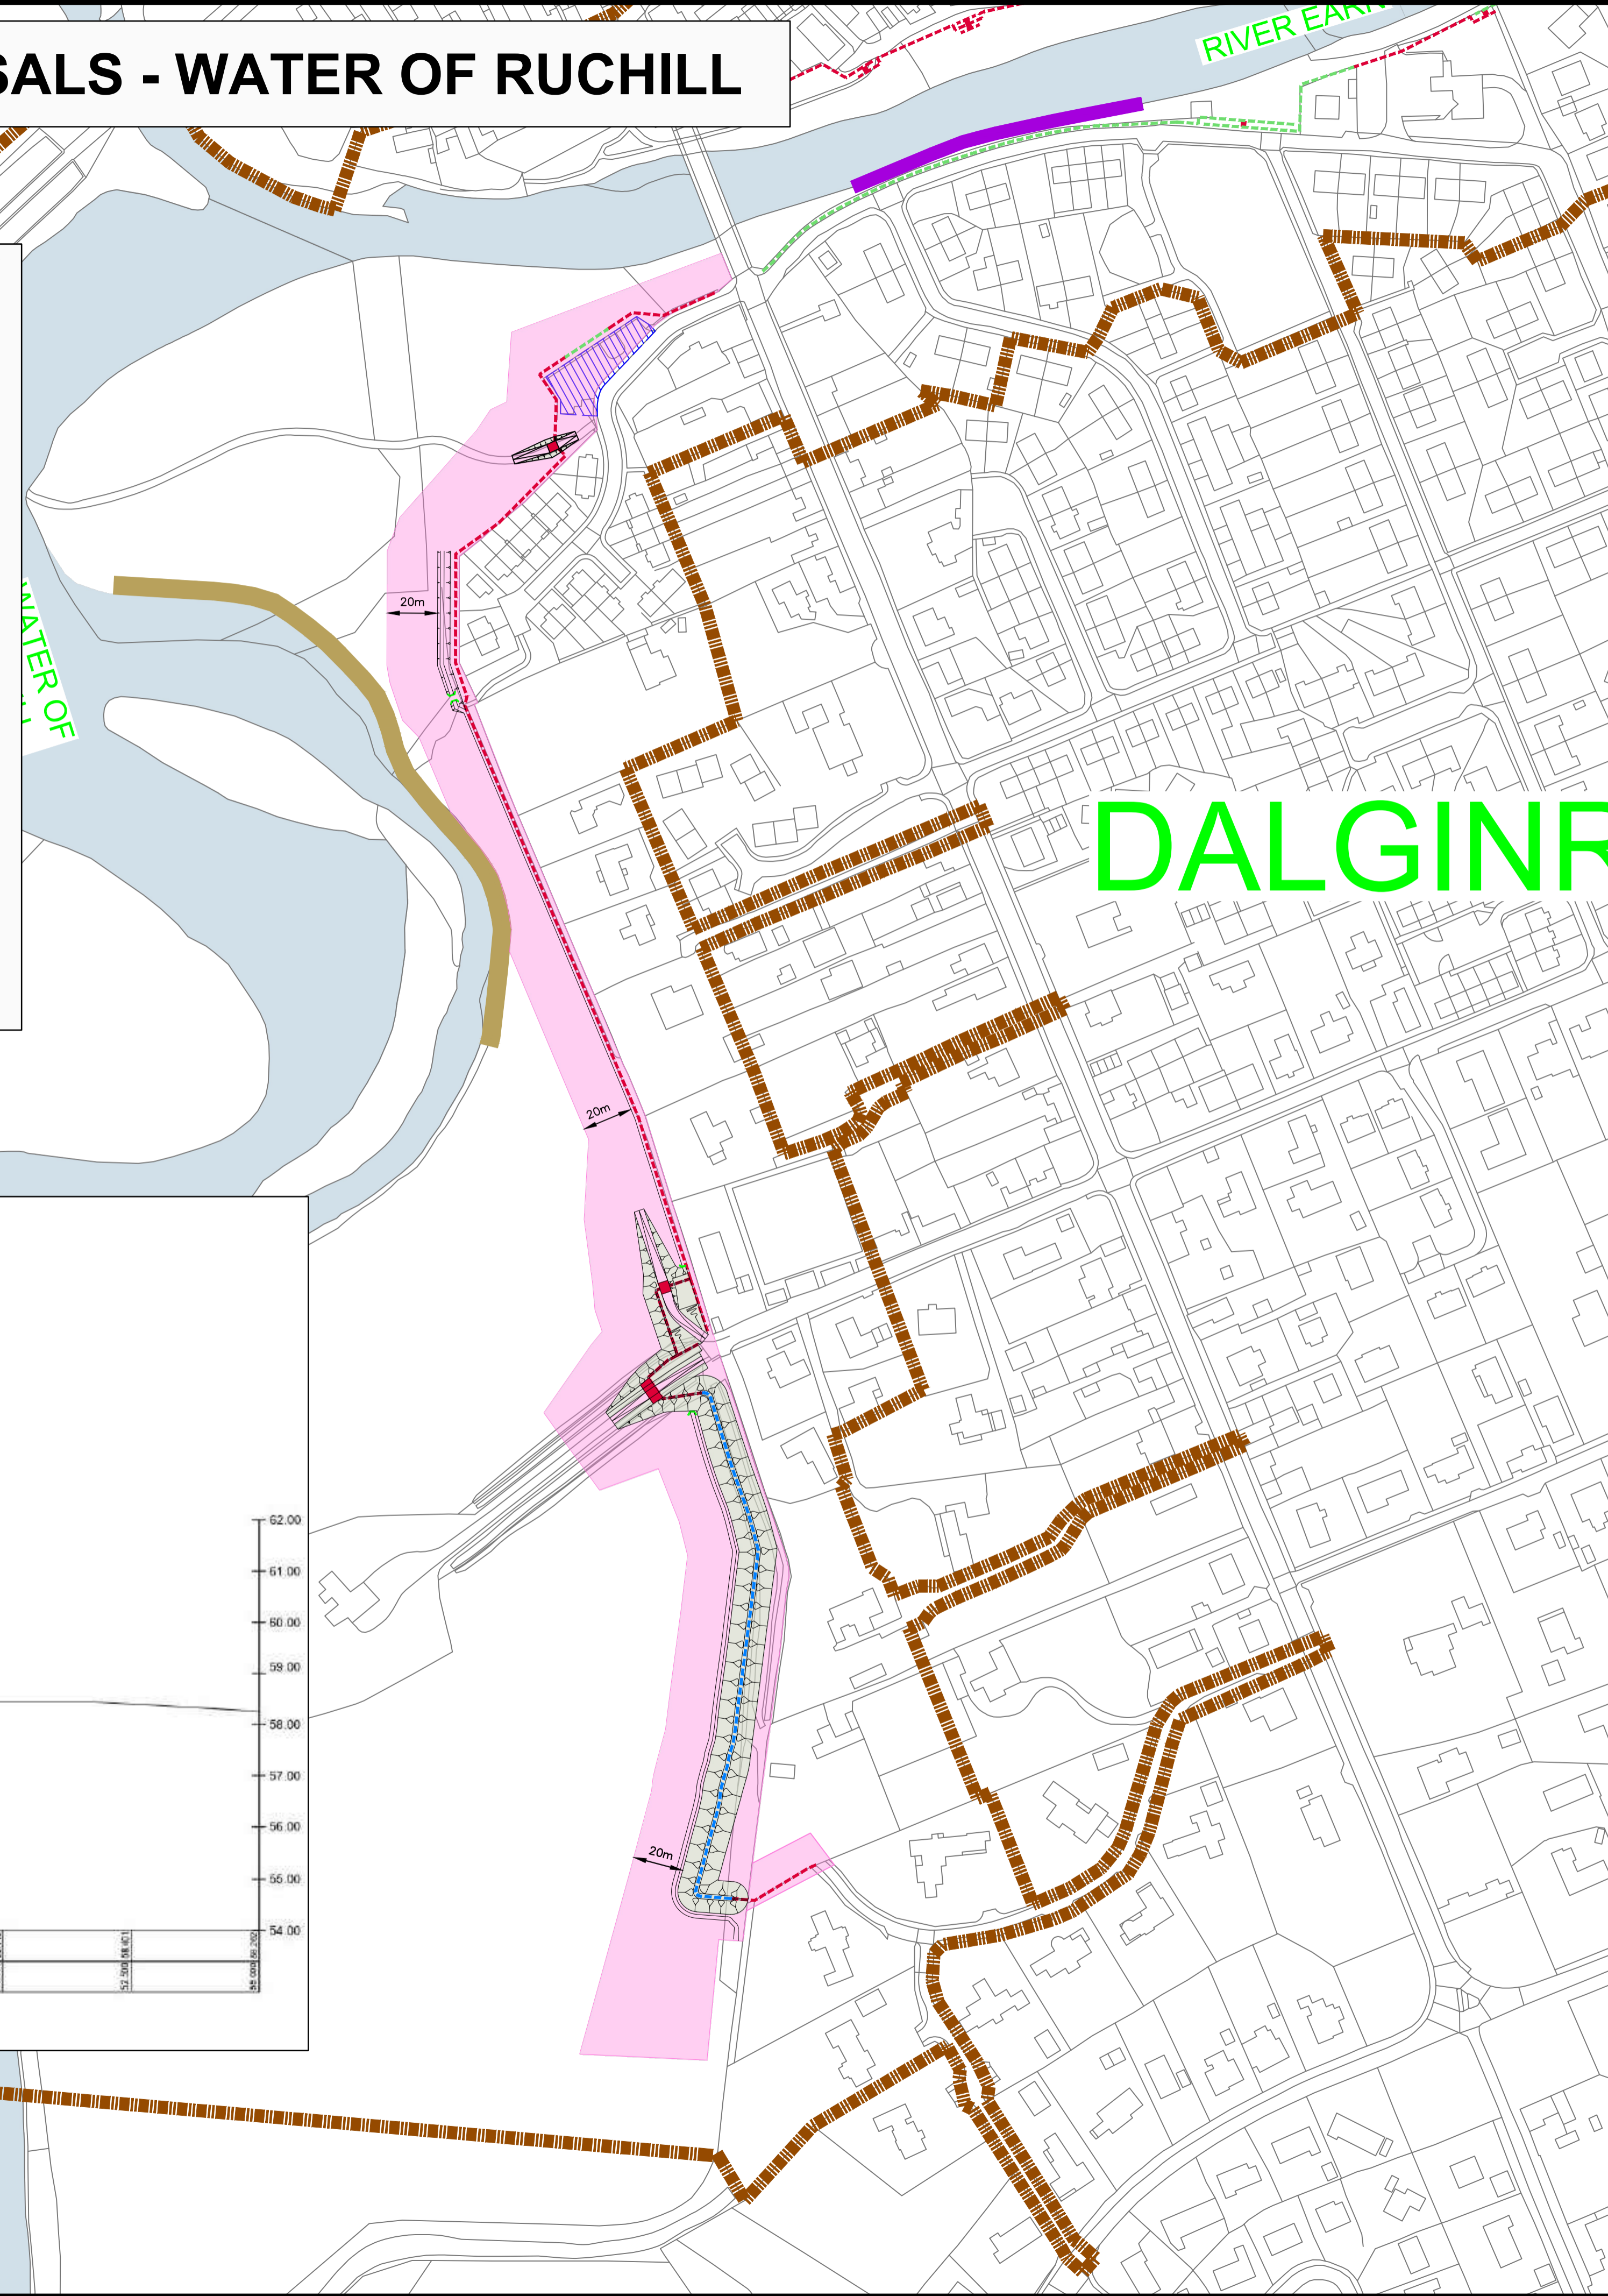

The working area required is approximately 20m from the new defence.

Existing level of protection from flood defences in this area is required to be maintained during the construction of the new scheme.
